ALEJANDRO GARCIA
FRONT-END DEVELOPER

ABOUT ME

I'm a front-end developer with experience in UI/UX design. I have experience building websites using WordPress, HTML, CSS, JavaScript, and Next.js. I also got the opportunity to build a mobile application using Flutter where I made API requests and implemented charts and a QR scanner among other features. I have also designed wireframes, prototypes, icons, and illustrations using Adobe Illustrator and Figma along with conducting usability studies.

TECHNICAL SKILLS

JavaScript, TypeScript, Git, HTML, CSS, SCSS, React, Flutter, WordPress, Next.Js, GitHub/GitLab, Strapi.js, GO, Adobe Illustrator, Figma, GraphQL, API's

OTHER SKILLS

- User Experience
